RISKS

The Participant understand that COINDUMP Tokens, blockchain technology, Ethereum, Ether and other associated and related technologies are new and untested and outside of COINDUMP's exclusive control and adverse changes in market forces or the technology, broadly construed, may prevent or compromise COINDUMP's performance under these Terms.

In addition to the above, the Participant also acknowledge that prior to receiving Tokens he have been warned of the following risks, associated with the Website, the COINDUMP Tokens, the COINDUMP App and other relevant technologies mentioned herein:

A) Legal risks regarding securities regulations

There is a risk that in some jurisdictions the COINDUMP Tokens might be considered to be a security, or that it might be considered to be a security in the future. COINDUMP does not give warranties or guarantees that COINDUMP Tokens are not a security in all jurisdictions. Each holder of COINDUMP Tokens shall bear its own legal and financial consequences of COINDUMP Tokens being considered a security in their respective jurisdiction.

Every Participant is bound to check if acquisition and disposal of COINDUMP Tokens is legal in his jurisdiction, and by accepting these Terms, each Participant undertakes not to use COINDUMP Tokens should their use not be legal in the relevant jurisdiction. If a Participant establishes that the use of COINDUMP Tokens under these Terms is not legal in his jurisdiction, You should not use the COINDUMP Tokens, not acquire them and should immediately stop using or possessing them if such case arises.

Acquiring cryptographic Tokens for personal possession and exchanging them for other cryptographic Tokens will most likely continue to be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of COINDUMP to provide COINDUMP Tokens and the availability of the COINDUMP App in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree certainty that COINDUMP Tokens are not legal in certain jurisdiction, COINDUMP will either:

- 1) cease operations in that jurisdiction, or
- 2) adjust COINDUMP Tokens and the COINDUMP App in a way to comply with the regulation should that be possible and viable.

B) Risks associated with Ethereum

COINDUMP Tokens are based on Ethereum blockchain. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the COINDUMP Tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of account of the Ethereum may itself lose value in ways similar to COINDUMP Tokens, and also other ways.

C) Risk of unfavourable regulatory action in one or more jurisdictions

Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Ethereum network and associated blockchain networks and COINDUMP Tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital Tokens like COINDUMP Tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.

D) Risk of theft and hacking

Hackers or other groups or organizations may attempt to interfere with Your Third-party Wallet, the Website or the availability of COINDUMP Tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks. You hereby agree that COINDUMP shall have no liability for any such loss the Participant incur.

E) Risk of security weaknesses in the Website and/or COINDUMP Tokens source code or any associated software and/or infrastructure

There is a risk that the Website and COINDUMP Tokens may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of COINDUMP Tokens.

F) Risk of weaknesses or exploitable breakthroughs in the field of cryptography

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, Ethereum, COINDUMP Tokens, the COINDUMP App, which could result in the theft or loss of COINDUMP Tokens.

G) Risk of mining attacks

As with other decentralized cryptocurrencies, Ethereum blockchain, which is used for the COINDUMP Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “selfish-mining” attacks, and race condition attacks. Any successful attacks present a risk to the COINDUMP Tokens, expected proper execution and sequencing of COINDUMP Tokens, and expected proper execution and sequencing of Ethereum contract computations in general. Despite the efforts of COINDUMP and Ethereum Foundation, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the COINDUMP Tokens interact with and consequently the COINDUMP Tokens may be impacted in that way to the extent, described above.

H) Risk of loss of value

Value of COINDUMP Tokens may fluctuate and their Participants might suffer loss in value of such acquired tokens. There might be different reasons that would cause unfavourable fluctuations of the value of the COINDUMP Tokens.

I) Risk of uninsured losses

COINDUMP Tokens are unlike bank accounts or accounts at some other financial institutions and are entirely uninsured.

J) Risk of malfunction in the Ethereum network or any other blockchain

It is possible that the Ethereum network or any other network, to which the COINDUMP Tokens are interacting with, malfunctions in an unfavourable way, including but not limited to one that result in the loss of COINDUMP Tokens

K) Internet transmission risks

The Participant acknowledge that there are risks associated with using the COINDUMP Tokens including, but not limited to, the failure of hardware, software, and Internet connections. The Participant acknowledge that COINDUMP shall not be responsible for any communication failures, disruptions, errors, distortions or delays You may experience when using the Website and COINDUMP Tokens, howsoever caused.

L) Unanticipated risks

Cryptocurrencies and blockchains are new and untested technology. In addition to the risks set forth here, there are risks that COINDUMP cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated.

M) Insufficient interest in COINDUMP, the COINDUMP App and COINDUMP Tokens

It is possible that COINDUMP, COINDUMP Tokens or COINDUMP App will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of the COINDUMP App.

N) COINDUMP Tokens and the COINDUMP App, as developed, may not meet the Participant's expectations

The COINDUMP App is currently under development and may undergo significant changes before release. The Participant's expectations regarding the form and functionality of the COINDUMP App and COINDUMP Tokens may not be met upon release of new Website, deployment of the COINDUMP App, additional products and services for any number of reasons, including a change in the design and implementation plans and execution of the implementation of COINDUMP Tokens.
